A DIRECTORY AT YOUR FINGERTIPS

In a city that's so alive and ever-changing, there's no way to truly find out what may be happening or where. Perhaps an impromptu concert has started at the Los Angeles Music Center and you're just a few blocks away, or trendy pop up by a famous Japanese chef in Little Tokyo has opened and there's only two tables left to reserve. To celebrate our lively city we developed and installed a citywide information system that displays any and everything you may need with the touch of a hand. Want to find out where that concert is playing but not quite sure how to get there? Perhaps you do want to reserve that last table after all, no problem just touch the closest ATLAS emblem and find or reserve anything you need in a matter of seconds.
